Indemnity Forms

Please ensure that you have completed filling in and submitting an [Indemnity Form](#) **BEFORE** you waterski.

Timing

We make every effort to run each set on time, however due to unforeseen circumstances we may be slightly ahead or behind schedule. Please arrive at the dock at least 20 mins before your set and be prepped (life vest, gloves, and ski on, rope and handle ready if you are using your own) and ready to ski from the dock when the boat returns for your set – please refer to photo

Cancellations

When making a booking please keep in mind that you are making a commitment to fellow waterskiers as well as to us, as we are making a commitment to you. Any cancellations within 24 hours of your ski set are chargeable unless we are able to make a replacement or rearrangement. (Except in cases of inclement weather, or other circumstances where skiing is cancelled).

Observer

While towing a waterskier, there should always be one observer in the boat. The observer's role is to:

- Watch for boat traffic and obstacles in the water
- Report waterskier's hand signals and status
- Help and rescue an injured waterskier
- Attach towline to the boat's pylon
- Throw waterski handle and line to the waterskier
- Retrieving waterski handle and line from the water after each session
- Assist the waterskier, especially beginners, with their equipment
- Balance the weight in the boat so the wakes are even

**All Participants & Passengers are Required to
WEAR A LIFE VEST AT ALL TIMES**

while on the Dock, Out on The Water or In The Boat

Safety

- Observers sitting in the boat must wear a life vest at a times
- **All skiers must wear a life vest at all times**
- All participants must be able to swim
- All parties should stay out of the water at all time unless getting ready to ski, to avoid getting run over by the boat, etc.
- Activities will stop in the event of a Lightning Alert and all parties are to leave the water/dock and take cover
- Swimming is not permitted in the reservoir at all time
- Skiers should be familiar with the standard waterhand signals – see illustration
